

Savonn Degreaser

DG 5

Descriptions

Savonn Degreaser DG5 will penetrate layers with a combination of aggressive caustics, buffering and stabilizing compounds that keeps the product from drying out. Savonn Degreaser can be used for pre-treating oil stains on concrete. The product is also used for soaking through very thick layers of , grease, foodstuffs, and hydraulic fluid and oil stains in one application.

Special Features

- Excellent adhesion and penetrating cleaning ability on vertical and horizontal surfaces.
- Fast Action
- Will not damage wires or hoses in engine compartments

Applications - General

Apply undiluted (straight) with a brush or low pressure sprayer.

Oil stains on concrete benefit from a brushing after application.

If used in a dip tank application, this product may be diluted up to 1:20. Allow products to soak until soil is softened.

Pressure washer rinsing is best.
